Agree / disagree

Open body paragraphs with a clear stance linked to one main reason.

Topic sentence	Tip
One compelling reason to support this view is that it delivers tangible benefits for ordinary	Lead with benefit + who gains
I would argue that this approach is largely justified because it addresses a long-standing	Stance + justification in one line
Opponents of this idea often overlook how unevenly the current system treats different	Counter then set up your rebuttal
A further advantage of agreeing with this statement is the positive effect on long-term	Second body: add a new angle
Nevertheless, the claim that this policy is always beneficial is difficult to sustain.	Soft disagree / partial agreement essays
In many contexts, the proposed measure simply fails to tackle the root cause of the problem.	Disagree by attacking effectiveness
What makes this position persuasive is the growing body of evidence from education and	Signal evidence without inventing stats
Critics are right to raise concerns, yet these risks can be managed with sensible safeguards.	Concede then defend your side
From a practical standpoint, implementing this idea would reduce pressure on public services.	Practical rather than moral framing
I remain unconvinced that such a change would improve quality of life for the majority.	Clear disagree opener
Supporting this view also encourages individuals to take greater responsibility for their choices.	Individual-responsibility angle
The central weakness of the opposing argument is that it assumes everyone starts from the same position.	Attack a false assumption
Agreeing with this statement does not mean ignoring short-term disruption.	Nuanced agree: acknowledge costs
Ultimately, the case for this policy rests on fairness rather than convenience alone.	Values-based agree paragraph
Those who disagree often exaggerate the likely downsides while underplaying the gains.	Rebut scare arguments
A decisive reason to reject this claim is the lack of flexibility it would create for families.	Disagree via real-life impact
When considered carefully, the advantages of this approach clearly outweigh the drawbacks.	Classic outweigh structure

I partly agree, particularly where vulnerable groups would otherwise be left behind.	Partial-agree topic sentence
This stance is further strengthened by the way technology has changed everyday expectations.	Modern-context support
Rejecting this idea, however, risks preserving an outdated system that no longer serves society	Disagree by warning about status quo

Discussion (both views)

Present each view fairly in its own paragraph before stating your position.

Topic sentence	Tip
Those who favour the first view argue that it protects individual freedom more effectively.	View A: freedom angle
Proponents of this perspective claim that collective needs should take priority over	View B: collective good
On one side of the debate, people contend that traditional methods remain more reliable.	Balanced discussion opener
On the other side, many believe that innovation is essential if society is to remain competitive.	Mirror structure for View B
Supporters of the opposing view suggest that stricter rules are the only practical solution.	Attribute view, stay neutral in tone
Advocates of greater choice emphasise the diversity of needs across different communities.	Diversity / local needs angle
By contrast, critics of this approach warn that it may widen existing social gaps.	Contrast without attacking yet
One widely held belief is that government intervention creates more problems than it solves.	Common View A framing
An alternative viewpoint holds that markets alone cannot deliver fair outcomes for everyone.	Common View B framing
Those in favour of the statement often point to successful examples in other countries.	Comparative evidence cue
Others maintain that local culture and values make overseas models hard to copy.	Context / culture counterview
From the perspective of young people, greater flexibility appears far more attractive.	Stakeholder-specific view
Older generations, however, may place more weight on stability and proven routines.	Generational contrast
While the first argument focuses on short-term convenience, the second stresses lasting impact.	Time-horizon contrast
It is understandable that some people value speed and efficiency above all else.	Empathetic framing of View A
Equally, there is a strong case for protecting quality even if progress becomes slower.	Empathetic framing of View B
This discussion often turns on whether responsibility lies mainly with individuals or	Clarify the real conflict
Having examined both sides, a more balanced position seems the most realistic.	Bridge to your opinion paragraph
Although both views contain valid points, the second argument is ultimately more persuasive.	Clear preference after discussion
In weighing these perspectives, the decisive factor should be long-term public benefit.	Criteria for choosing a side

Advantages / disadvantages

Keep one paragraph for benefits and one for drawbacks, or outweigh with clear signalling.

Topic sentence	Tip
----------------	-----

A major advantage of this development is the way it expands access for people in remote areas.	Access / inclusion benefit
One clear benefit is that individuals can save both time and money in their daily routines.	Practical advantage
Perhaps the most significant upside is the boost it can give to innovation and creativity.	Innovation angle
Another positive outcome is improved communication across regions and age groups.	Social connection benefit
From an economic standpoint, this change can stimulate new industries and job opportunities.	Jobs / economy advantage
On the downside, the same trend may deepen inequality between those who can adapt and those who cannot.	Inequality disadvantage
A notable drawback is the potential loss of face-to-face interaction and community bonds.	Social cost
Critics also highlight the risk of overdependence on systems that can fail without warning.	Reliability risk
An additional concern is that privacy may be compromised when data is collected at scale.	Privacy disadvantage
Despite these benefits, the financial cost of implementation remains a serious obstacle.	Cost as counterweight
While the advantages are attractive, they should not obscure the environmental consequences.	Environment trade-off
In the short term, the disadvantages may feel more immediate than the longer-term gains.	Timeframe nuance
Over time, however, many of the drawbacks can be reduced through better regulation.	Mitigation for outweigh essays
The key advantage lies not only in efficiency but also in the quality of decisions people can make.	Quality + efficiency
Conversely, rushed adoption without training can create confusion and lower standards.	Implementation risk
Taken together, the benefits appear substantial, yet they come with trade-offs that deserve	Balanced advantages-disadvantages tone
If the advantages are to outweigh the disadvantages, careful planning will be essential.	Conditional outweigh
One underestimated benefit is the confidence people gain when they master new tools.	Soft / human advantage
A frequently cited disadvantage is the pressure this places on already busy households.	Lifestyle pressure
Overall, the advantages are more convincing when safeguards are built into the system from	Conclusion-leaning topic sentence

Problem / solution

Name the problem clearly, then open solution paragraphs with concrete, realistic measures.

Topic sentence	Tip
One of the most pressing problems is the growing gap between demand and available	Define the core problem
A related issue is that many people lack the information needed to make informed choices.	Information gap problem
This situation is made worse by inconsistent policies across different regions.	Policy inconsistency
At the individual level, stress and time pressure prevent people from changing their habits.	Behavioural barrier
A further difficulty is that short-term incentives often conflict with long-term goals.	Incentive misalignment

To address this, governments should invest in affordable public alternatives that people can	Government solution
A practical solution would be to introduce clearer guidelines backed by consistent enforcement.	Rules + enforcement
Education campaigns can also play a vital role by changing attitudes before habits harden.	Awareness solution
Another effective measure is to provide targeted support for those most affected by the problem.	Targeted help
In addition, collaboration between the public and private sectors could accelerate progress.	Partnership solution
Communities themselves can contribute by sharing local knowledge and monitoring	Bottom-up solution
Technology offers a further remedy, provided it is designed with accessibility in mind.	Tech solution with caveat
Without tackling the underlying causes, surface-level fixes are unlikely to last.	Warn against shallow solutions
If these steps are combined, the scale of the problem can be reduced significantly.	Multi-measure wrap
The first priority should be prevention, because curing the damage later is far more costly.	Prevention-first framing
A second priority is transparency, so that the public can see whether policies are working.	Accountability solution
Employers can help by creating incentives that reward sustainable everyday behaviour.	Workplace angle
Parents and schools also have a part to play in building responsible habits early.	Education / family angle
Although no single solution is perfect, a coordinated package of measures is realistic.	Realistic tone for Band 7+
Ultimately, lasting improvement depends on both policy change and individual commitment.	Shared-responsibility close

Two-part / direct questions

Answer each question in turn; use the topic sentence to show which question you are addressing.

Topic sentence	Tip
Turning to the first question, several factors help explain why this trend has emerged.	Q1 causes opener
The rise of this phenomenon can be attributed mainly to economic and technological change.	Q1 multi-cause
Social expectations also play a role, particularly among younger urban populations.	Q1 social cause
As for the second question, the effects on society are both positive and negative.	Q2 effects bridge
One important consequence is that traditional skills risk being undervalued.	Q2 negative effect
At the same time, this development creates opportunities that earlier generations lacked.	Q2 positive effect
Regarding why this happens, the most persuasive explanation is changing lifestyle	Why-question framing
In terms of how societies should respond, a mix of incentives and regulation seems wisest.	How/should-respond framing
The causes are complex, yet two stand out as especially influential.	Signal you will cover two causes
The impacts vary by age group, which is why a single response is rarely enough.	Nuanced effects answer

Answering whether this is beneficial overall requires separating short-term and long-term	Is-it-good question
In the short term, disruption is almost inevitable as people adjust to new norms.	Short-term half of two-part
In the longer term, the same shift may improve efficiency and widen participation.	Long-term half of two-part
What drives this issue most strongly is the mismatch between demand and supply.	Direct cause answer
What should be done next is to pilot small-scale reforms before expanding them nationally.	Direct solution answer
Who benefits most depends largely on income, education and access to digital tools.	Who-benefits question
Where this trend is strongest, cities with dense populations tend to feel the pressure first.	Where-question framing
Whether governments or individuals should lead depends on the scale of the challenge.	Who-should-act question
To answer both parts fully, it is necessary to link causes to realistic responses.	Coherence across two questions
Having outlined the reasons, the discussion can now focus on the most workable remedies.	Smooth Q1-to-Q2 transition
